# Maine Alcohol & Other Drug Abuse Treatment Services

This directory provides a list of alcohol and other drug abuse treatment services available in the State of Maine. Detailed information on these agencies and their services, as well as the most recent changes and updates to the information provided here, is available from the online directory at <http://www.maineosa.org/directory>.

If you do not have access to the web, the Information and Resource Center can print the information you need.

A separate directory of self help and support group meetings is also available.

**Treatment Agencies:** Please notify the Office of Substance Abuse of any changes to your listing. An **online change form** is available at <http://www.maineosa.org/directory>. Helping us provide accurate and timely information will promote continued quality service for people throughout the State of Maine.

### Types of Treatment Services

#### **Detoxification**

A "detox" is a residential program that provides assessment, diagnosis, and medical treatment to stabilize people who are experiencing withdrawal from alcohol or other drugs.

#### **Detoxification Management**

Some detoxification services are provided through a special contract with Aroostook Mental Health Center and are available at selected Region III hospitals (Aroostook, Hancock, Penobscot, Piscataquis, and Washington Counties). These hospitals are in addition to the ones listed under Detoxification. When calling a contracted hospital, you may need a contact name or additional information which can be found on the full entry on the web. You can also call the Office of Substance Abuse Information and Resource Center listed on this publication and request this information.

#### **Extended Care**

Clients with extensive substance abuse or coexisting disorders of substance abuse and mental illness may enter an extended care program, a residential treatment program that offers treatment stays in excess of 180 days.

#### **Extended Shelter**

An extended shelter offers structured residential treatment for people who are on waiting lists for residential treatment or have completed detoxification and need to develop a social support system to help them remain sober.

#### **Halfway House**

Halfway houses are three to six-month residential programs that provide support for sobriety, and prepare clients to re-enter the work force and re-establish themselves in the community. The programs help clients develop socialization skills and vocational needs.

#### **Intensive Outpatient**

Nonresidential rehabilitation programs provide intensive and structured substance abuse treatment, three to four days a week. The programs usually last three or four weeks and may be conducted during the daytime or in the evening.

#### **Methadone Detoxification**

This is a program that provides opioid detoxification. The detoxification process involves the reduction of Methadone to a zero dosage upon discharge.

#### **Methadone Maintenance**

Under medical supervision, Methadone Maintenance clinics administer opioid agonists, monitor dosages, and provide counseling to people with a dependence on heroin or other morphine-like drugs.

#### **Outpatient Services**

This treatment model is non-residential. Outpatient programs offer individual, group and family sessions, usually for an hour or ninety minutes once a week.

#### **Residential Rehabilitation**

Residential rehabilitation programs offer substance abuse treatment in a twenty-four hour residential setting for seven to twenty-one days. Treatment includes lectures, groups and individual counseling.

#### **Shelter**

Shelters provide food, clothing, and lodging for up to twelve hours a day. Shelter programs can also motivate people to seek and enter treatment.

#### **Co-Occurring Disorders**

This list contains all alcohol and other drug abuse treatment agencies licensed in the State of Maine who also hold a mental health license.
